BUSINESS & INDUSTRY TRAINING

Electronics

Earn a Certificate in Electronics Fundamentals!

VU's Electronics Fundamentals Certificate program provides you with a comprehensive introduction to all areas of electronics (AC/DC, digital circuits, and linear electronics) in classrooms and through the hands-on use of multi-meters, oscilloscopes, function generators, power supplies, and soldering techniques in the lab.

An earned certificate is equivalent to completing the first year of an associates degree program. Graduates will be eligible for transfer to two-degree programs for Electronics Technician or Biomedical Equipment Technician.

- **No previous experience in electronics required**
- **All tools and parts needed for classes are provided**
- **High school diploma or equivalent required for registration (except current high school students)**
- **Some students may have this certification paid in full with available grant funding**
