

COURSE MENU BECOMES COLLAPSED OR DOES NOT SHOW UP

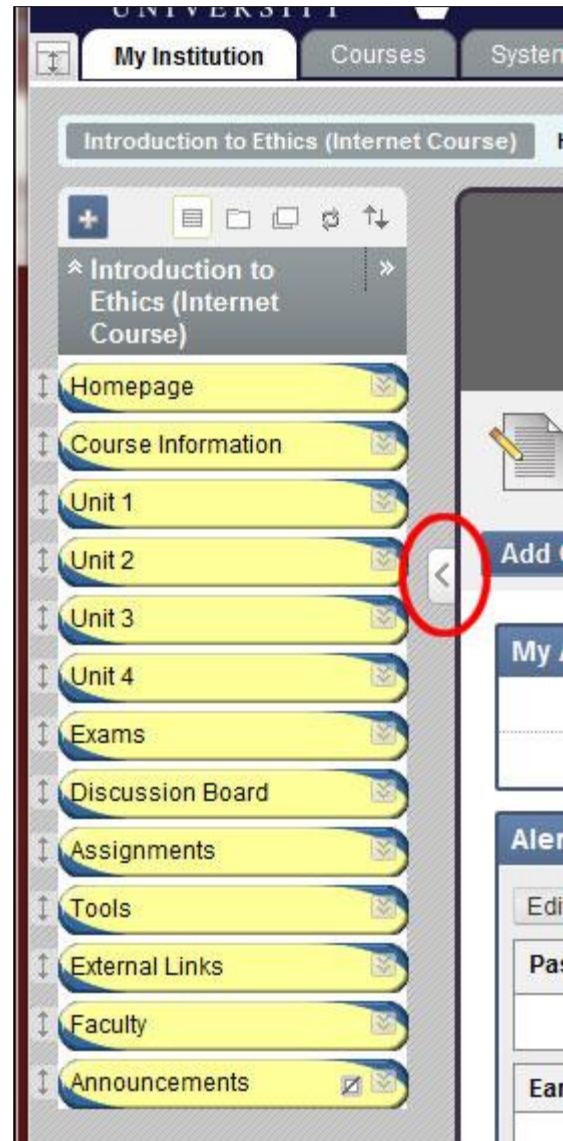

Each course in Blackboard has a course menu on the left hand side of the screen. If at any time you or your students log in and the menu does not appear in your course, the menu has become collapsed.

On the very left of the screen, there is a little arrow that points to the right. This is where the menu normally would appear. When you click on that arrow, the menu will expand out and you will be able to access it as you normally would.

Example:

Menu Collapsed

Menu Expanded
